

# Nokia Maps 2.0

## Let Nokia Maps show you the way

- Nokia Maps 2.0 is taking connected mobile navigation to the next stage in context-aware, location-based environment, opening up a new world of possibilities:
- **Drive:** Enhanced car navigation featuring for instance stopover routing and traffic information
- **Walk:** Easy to use pedestrian navigation, helping urban pedestrians better find their way on foot
- **Discover:** The new quick and easy one-box search functionality, satellite view, improved mapping and routing all enrich the consumer journey. New multimedia premium City Guides introduce locations enriched through photos, videos and audio files.
- Nokia Maps makes it easier to find your way in a new environment and discover places en route

### Drive like never before!

- Routing with stopovers, saving routes
- Easy switch between bird-eye, arrow, and traditional view when navigating
- Real time traffic feeds for efficient re-routing as a premium service \*

### Walk!

- Find it and get there in a heartbeat: 'Walk to'
- City maps featuring pathways, house polygons, and more
- Navigation works in slow motion thanks to multi-sensor technology using A-GPS and (in select devices) compass

### Simplicity without compromise!

- Find what is relevant close to you with the always present one-box search for online and offline content
- The search results are displayed according to category which makes it easier to find what you are looking for.
- Easy to use maps switcher with traditional, satellite and hybrid maps
